

Mottled Paint Wands

These fun wands have a mottled paint finish, featuring Eco Green Crafts' Acrylic Paint. A bright base coat is applied, then a lighter color is "mottled" over the surface. Bows of ribbon finish these adorable wands.

MATERIALS

- Small wooden wands
- Eco Green Crafts' Acrylic Paints
- Spray bottle
- Paper towels
- Ribbons

Mottled Paint Wands

DIRECTIONS

1. Paint a base coat of Eco Green Crafts' Acrylic Paint (your choice of color) over the head of the wand. Allow to dry completely.
2. Paint another coat, using a different color.
3. While the paint is still wet, spray water droplets all over with your spray bottle.
4. Blot the surface with paper towels to create the mottled effect.
5. Decorate with ribbons as desired.
